## SUMMARY:

I'm a front-end developer and team lead with 4 years of experience in building scalable applications using React, Next.js, React Native, TypeScript, and Node.js. I focus on performance, accessibility, SEO, and modern UI to deliver user-friendly web and mobile products.

## EXPERIENCE:

- **Stratosphere IT Services** Sept 2024 to Current  
*Senior React Developer*
- **Spectus Infotech** March 2022 to June 2024  
*Senior Front-End Developer / Team Lead*
- **Groovy Web** May 2021 to Jan 2022  
*Front-End Developer*
- **Self Employed** May 2019 to Jan 2021  
*Owner & Proprietor of Clothing Business*
- **Back Office Executive** July 2018 to March 2019  
*Locum in an International Recruitment Company*

## PROJECTS:

- **Transshipment Network Platform**: *React.js, MUI, Redux, Formik*  
Developed a Transshipment Network Platform for managing container bookings, tracking, and price negotiations, with role-based access control and multi-currency payment handling. Created an intuitive content management system for secure admin operations.
- **Innovative Driver Education Platform**: *React.js, React-native, MUI, Redux, Formik*  
Developed a Driver Education platform like Uber for online classes, driving lessons, and exams. Included payment options, live tracking, and a content management system for improved admin oversight and efficiency.
- **HR Management Platform**: *React.js, React-native, MUI, Redux, Formik*  
Built an advanced HR Management Platform with role-based access for different user levels. Included features for scheduling video interviews, managing candidates, custom question sets, automated result sharing, and integrated attendance and leave management.
- **Design Studio App**: *React.js, MUI, Redux Toolkit*  
Created a feature-rich Design Studio app inspired by Canva, allowing easy design creation and editing. Integrated AI to convert YouTube URLs into customizable PDF documents with AI-assisted prompts. Developed a robust content management system to improve user experience and app functionality.
- **Marketplace for Digital Services** *React.js, MUI, Redux, Formik*  
Created a marketplace platform like Upwork for freelancers and customers to manage profiles, services, and bookings. Added cryptocurrency payment options and real-time chat for seamless communication.
- **Digital Wallet System**: *React.js, React-native, MUI, Redux, Formik*  
Created a Digital Wallet System like Google Pay for secure payments via QR codes, phone numbers, and bank details. Added two-factor authentication, multi-wallet management, and investment features, with a user-friendly interface for easy transactions.
